Subject: Microsoft settlement

I strongly urge the Department of Justice to reach a reasonable settlement with Microsoft. With the soft economy we have today we do not need another Enron. Microsoft employs thousands and a layoff would be disastrous to the economy, especially in the western states. I do not believe that Microsoft has done anything that their competitors have done in a smaller scale, yet they expect the government to advance their causes - or should I say "agenda".

Sincerely,

Frank Burdick
